Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N.Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

BLOCKADED.

Every Household in Paw Paw

Should Know How to Resist it.

The back aches because the kidneys are blockaded.

Help the kidneys with their work.

The back will ache no more.

Lots of proof that Doan's Kidney Pills do this.

It's the best proof for it comes from Paw Paw.

Mrs. P. B. Yelder, Paw Paw, says: "For three or four years I had trouble from my back and kidneys and if I did much stooping or lifting the pains in my back became more severe. There was also a lameness and weakness across my loins which inconvenienced me in many ways. When Doan's Kidney Pills were brought to my notice, I procured a box at Longwell Bros' drug store, and though I did not give them a fair trial, they brought the best of results. I recommend this remedy highly."

For sale by all dealers. Price 50 cents.

Boston Schools Less Democratic.

Mrs. Ella Flagg Young, the able woman who revised the system of the Chicago public schools during her one year as superintendent, and who was in Boston recently, was asked what she thought of the public schools of the Hub, and, after a pause in which she seemed to weigh her answer carefully, she replied: "The Chicago schools are more democratic than those in Boston." She said she regarded this as an advantage, but she would not go into details concerning the Boston system. She pointed out, however, that many school systems were tending to make a great machine out of the schools, and that thus the individuality of the pupils was lost sight of. "I believe," said she, "that the minimum salary of any school teacher should be \$1,500 a year, and at that salary I am confident that we should have a class of women who could cope intelligently with the question of individuality." She said she would pay teachers of cooking that salary.

Says the Girl to the Baker

If this Loaf and this Cake are what you say they are, pure, wholesome and delicious eating, of course we will have no reason to change our baker, as your prices are all right.
